Our payment policies ensure that we pay providers based on the code that most accurately describes the procedure performed. We include CPT/HCPCS, CMS or other coding methodologies in our payment policies when appropriate. Unless noted otherwise, payment policies apply to all professionals who deliver health care services. When developing payment policies, we consider coding methodology, industry-standard payment logic, regulatory requirements, benefits design and other factors.

Overview

This policy addresses our guidelines regarding payment for telehealth, telemedicine, direct patient contact, care plan oversight, concierge medicine, and missed appointments.

Refer to [Expanded Claim Edits](#) for additional coding and reimbursement policies that may apply separately from the policy detailed below.

Definitions/Glossary

Term	Definition
Asynchronous Telecommunication	Telecommunication systems that store medical information such as diagnostic images or video and forward it from one site to another for the physician or health care practitioner to view in the future at a site different from the patient. This is a non-interactive telecommunication because the physician or health care practitioner views the medical information without the patient being present.
Synchronous Interactive Audio and Video Telecommunication, Interactive Audio and Visual Transmissions and Audio-Visual Communication Technology	Real-time interactive video teleconferencing that involves communication between the patient and a distant physician or health care practitioner who is performing the medical service. The physician or health care practitioner sees the patient throughout the communication, so that two-way communication (sight and sound) can take place.

Telehealth	Telehealth is broader than telemedicine and takes in all health care services that are provided via live, interactive audio and visual transmissions of a physician-patient encounter. These health care services include non-clinical services, such as provider training, administrative meetings and continuing medical education; in addition to clinical services. Telehealth may be provided via real-time telecommunications or transmitted by store-and-forward technology.
Telemedicine	Telemedicine services involve the delivery of clinical medicine via real-time telecommunications such as telephone, the internet, or other communications networks or devices that do not involve in person direct patient contact.

Telemedicine for Commercial Plans	
Two-way, Synchronous (i.e. real-time) Audiovisual Interactive Medical Service Modifiers GT, 95	<p>We pay for two-way, synchronous (i.e. real-time) audiovisual interactive medical services between the patient and the provider.</p> <p>We consider services recognized by The Centers for Medicare and Medicaid Services (CMS) and appended with modifier GT, as well as services recognized by the AMA included in Appendix P of the CPT® Codebook and appended with modifier 95.</p> <p>A list of eligible CPT/HCPCS codes is available here. When a provider reports modifier GT or 95, it certifies the patient received services via an audiovisual telecommunications system.</p> <ul style="list-style-type: none"> GT: Telehealth service rendered via interactive audio and video telecommunications system 95: Synchronous telemedicine service rendered via real-time interactive audio and video telecommunications system <p>Click here for more information about our telemedicine visit co-pay liberalization in response to the Coronavirus COVID-19 outbreak.</p>

Asynchronous Telecommunication Modifier GQ	<p>We don't pay for asynchronous telemedicine services.</p> <ul style="list-style-type: none">• These services are considered incidental to the overall episode of care for the member.• When providers report modifier GQ it certifies the patient received services via an asynchronous method.
Tele-Stroke Services Modifier G0	<p>We pay for tele-stroke services when appended with modifier G0.</p> <ul style="list-style-type: none">• G0: Telehealth services for diagnosis, evaluation, or treatment, of symptoms of an acute stroke
Telemedicine for Medicare Advantage Plans	
Telemedicine for Medicare Members/Plans	<p>Medicare Advantage members may be eligible for telemedicine services in accordance with CMS regulations. We follow CMS policy.</p> <p>https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes</p> <p>Click here for more information about our telemedicine liberalization in response to the Coronavirus COVID-19 outbreak.</p>
Direct Patient Contact	
Direct Patient Contact	<p>Other than two-way synchronous (i.e. real time) audio visual interactive medical services, and tele-stroke services, as above, we don't pay for medical services that don't include direct in-person patient contact. Payment for these services is considered incidental to the overall episode of care for the member. One example of time spent without direct patient contact is physician standby services.</p> <p>We consider services payable only when provided in-person face-to-face.</p>
Telehealth Transmission Fees	
Telehealth Transmission Fees HCPCs codes Q3014 and T1014	<p>Charges for telehealth services or transmission fees aren't eligible for payment. These services are incidental to the charges associated with the evaluation and management of the patient.</p>

Care Plan Oversight

Care Plan Oversight

Care plan oversight is not eligible for payment. Care plan oversight is billed for physician supervision of patients under the care of home health agencies, hospice or nursing facilities. It includes the time spent reviewing reports on patient status and care conferences. We do not pay for time without direct patient contact.

Note: Care plan oversight is eligible for payment on case management exceptions authorized by Patient Management.

Concierge Medicine or Boutique Medicine

Concierge Medicine or Boutique Medicine

Concierge medicine, also called boutique medicine is a fee charged for services a patient receives outside of direct patient contact. These services are considered above and beyond the usual, such as scheduling preference or return phone calls from the provider.

These services do not represent treatment of disease or injury. They are standard administrative services that are included in the evaluation & management service, we don't allow separate payment.

No specific code exists for these services. Services may be billed with a written description, such as "Concierge Services" or "Administrative Services."

Missed Appointments

Missed Appointments

We don't cover missed appointments because no direct or indirect medical care was rendered to the patient. Charges due to a missed appointment are the responsibility of the member.
