

The Practice Profile web tool allows you and office managers in your practice to view, update, and attest to provider and practice demographic information on file with us. Information includes provider's name, NPI, email address, provider type, specialty, acceptance of Medicare and/or Medicaid, telehealth services, online scheduling, EMR system name/address, EMR attestation and practice location information. **Your submitted attestation will complete the "Practice Communication" requirement of the MSHP Clinical Integration Program and ensure your practice information is accurate on MSHP directories.**
